American Numismatic Auctions

by

Martin Gengerke

Compiled on November 17, 2009

Decades ago I published several editions of this work, with the help of Remy Bourne, Myron Xenos and Ken Lowe. Unfortunately, the amount of work involved, and an inexplicable desire to remain financially solvent prevented further editions until now. Semi-retirement, coupled with the widespread acceptance of Adobe's PDF format for document sharing (and easy availability of many free PDF readers) has once again made this effort possible.

With the cooperation of the Numismatic Bibliomania Society, I've decided to turn this work into an **"open source"** document, updated by information contributed by users, and available for **FREE** to all, via download at the NBS web site, among others.

In that spirit, this PDF document may be freely copied and distributed, provided that no fee is charged and the document is not changed in any way. It may also be printed in whole or in part, provided the printouts not be sold.

Please send any additions or changes to me at gengerke@aol.com

Foreword

After many decades of diligently compiling the most comprehensive data on American Numismatic Auction Sales not to be found in any other place, Martin Gengerke now makes this unprecedented "labor of love" free to the numismatic community. It is very rare for the numismatic community to be offered free such a rare and comprehensive body of work.

Now Martin is asking for your help, in return, by notifying him of any new additions that would improve this work. I am sure that there are still many new numismatic auction catalog discoveries and new consignors to be added to this chronological listing. Other items that remain to be found and updated to Martin's listing are: Prices realized, illustrations, plates and much more, as detailed in the miscellaneous column.

Many people have contributed over the years and I am proud to have played a small part.

A work like this could not exist without the ongoing support of many people. Format

This document will follow the format of the original work. There are three major sections:

1) A listing of auction catalogs, alphabetical by auction firm.
2) A chronological list of auction catalogs.
3) An alphabetical list of named auction consignors.

Abbreviations

The columns contain, in order: the Sale Number (if numbered), Sale Date, Number of Lots, Number of Pages, Miscellaneous Data (explained below), Source of the Listing, and Consignors and/or comments.

The Sale Number (if present) will be as assigned by the firm. Where I have assigned a sale number, it appears in parentheses. Such assigned sale numbers agree with Adams' works in most instances - the exceptions are noted in the text.

The "Source" column in the listing contains many cryptic entries, generally rather easy to follow with these rules:

1) If the American Numismatic Society has (or is reported to have) the catalog, the listing is "ANS"
2) If the ANS doesn't have it, but I have seen it, the listing is "MG"
3) If 1 & 2 don't apply, the initials of the person reporting the information (or "DLR" for the dealer) appear
4) If the listed information has been verified by someone close to this project, a "*" follows the initials
5) A "?" after the source indicates that some listed information has been reported differently from that shown

The Miscellaneous Column:

In order to include as much information as possible in such a limited space, a system of several "fields" will appear in this column. The first character will always refer to the CATALOG, the second to the ILLUSTRATIONS, and the third to the PRICES REALIZED. The 4th & 5th positions (if they appear) will have less often needed information.

First Position: Types of Catalogs

N	=	"Normal"' catalogs only
D	=	Deluxe (hard bound, interleaved, etc.) catalogs issued
L	=	Large format / thick paper catalogs issued
R	=	Catalog reprinted (part or all)

P	=	Plate pages bound in - both color and black & white
p	=	Plate pages bound in - black & white only)
B	=	Both drop-ins and plates (color and black & white)
b	=	Both drop-ins and plates (black & white only)
Q	=	Color plates plus black & white drop-ins and/or plates
C	=	Illustrations on the cover only (color)
c	=	Illustrations on the cover only (black & white)
L	=	Line drawings
S	=	Stock photos (not the coins being sold)
V	=	Coins "illustrated" in a video cassette

AUCTION 'xx			**"Auction '79", "Auction '80", "Auction '81" . . . A consortium consisting of Paramount, Rarcoa, Stack's and Superior, formed in 1979 to avoid a bidding war for the right to hold the "official" ANA sale at the annual ANA convention. Each company has 500 lots in each sale, the order of sale rotating each year. They have come to be known as the "Apostrophe Sales." In 1988 David W. Akers, formerly of Paramount, took over Paramount's portion of the sales.**

Some Bangs sales were cataloged by numismatists such as Sage, Anthon, Cogan, Levick, Haines, Feuardent, Sampson & Snyder, and Randall, and are listed under their names. Others were cataloged by what John Adams refers to as "nameless ignorami," a description that is in some cases charitable. Bangs also served as the physical auction facility for many other firms, including Chapman, Cogan, Haseltine, Proskey, Strobridge and Woodward. Two of the firm's members, Andrew Merwin and George Clayton later founded their own firm (see Merwin-Clayton).**

BARNEY BLUESTONE (Syracuse Coin Shop, NY)						**The eight Albert A. Grinnell paper money sales were Bluestone's only unnumbered sales. The deluxe bound edition of the Grinnell sales had only the first seven parts (as did the later Grinnell reprint by Bill Anton and Morey Perlmutter). The eighth part was a "cleanup" sale of odds and ends plus returns, miscatalogings, and unsold lot from the first seven parts. Starting with sale number 99, Bluestone shifted to a large, mimeographed format. For a short time around 1935-1936 or so Bluestone also used the name "Salt City Coin Co." and some sales were cataloged jointly by Bluestone and Frank O. Brown.**

BOWERS & RUDDY

(Hollywood CA)

Q. David Bowers and James F. Ruddy.
See also "Windsor Galleries Inc.", "Bowers & Merena", "Empire Coin Co.", "Triple Cities", and "Penn-New York" for other Bowers and/or Ruddy firms. In addition, both Bowers and Ruddy were among the original founders of Paramount.
Known as the "American Auction Association" from sale #1 to sale #11; the "Bowers & Ruddy" name began with sale #4. From sale #8 through sale #18 the firm was a subsidiary of General Mills.
For five years (1976-1981) B&R sequentially numbered their major publications on the back cover. The 10/1/76 Turoff sale was #2, the 6/15/81 Tuttle sale was #45. The major auction sales and "Rare Coin Review" fixed price lists shared the numbering sequence, which appears here in brackets [] at the end of the consignor column.

S.H. & H. CHAPMAN

(Philadelphia PA)

Brothers Samuel Hudson and Henry Chapman, former employees of John Haseltine, formed their own firm in 1878. In 1906 they amicably dissolved their joint firm and formed successful separate firms - see separate listings for each of them.
Sale numbers have been assigned to match John Adams, except that his #6 (4/25/81, 577 lots) has been eliminated. This sale has been seen - it is marked as a Thomas sale, and in no way resembles a Chapman sale, though they took credit (blame ?) for cataloging it. In addition, Adams' #17 has also been eliminated per Adams' corrections published in "The Asylum" vol.8 no.3.
"(L)" in the consignor column indicates a large format catalog.

CHRISTIE'S (New York NY)			**Until the mid 1980's, numismatic sales at Christie's were handled by the philatelic firm of Robson Lowe, as were all Christie's stamps sales. Christie's has since added a formal numismatic department, and the name now used is "Christie's New York." The firm is a division of Christie, Manson and Woods International Inc. See also separate listing under "Spink America," a separate subdivision formed in 1995.**

CURRENCY AUCTIONS OF AMERICA **(Forest Hills NY)**						**Initially Len Glazer (Forest Hills NY), Allen Mincho (Cedar Park TX), and Kevin Foley (Milwaukee WI). In 1998 Kevin Foley left to become vice president of R.M. Smythe & Co. Catalogues are perfect bound except for a few which are spiral bound for favored customers. In 2001 the firm was bought by Heritage; subsequent sales were held as CAA/Heritage. Beginning with the September 1994 sale the name changed to Heritage Currency Auctions of America. Beginning with the September 21, 2005 sale all mention of CAA or Currency Auctions of America was dropped; subsequent catalogs are listed under Heritage. FEDERAL COIN EXCHANGE (Cleveland OH)			**"Federal Coin Exchange" until August 1961, when the operation was split, with Michael Kolman operating "Federal Brand Enterprises" (and the auctions), and Ed Kolman operating the downtown store, still named the Federal Coin Exchange. In 1976 Ed Kolman retired, selling the Federal Coin Exchange to Ted Martowitz and Thomas P. Squires (previously with Bob Westfall). The 9/16/77 sale was numbered 102, following sale #101 by Squires before he joined Federal Coin Exchange. This firm often had two (or even three) separate convention sales, weeks or months apart, bound in one volume. In at least one instance the second part is also known as a separate, stand-alone volume. There is no connection to the "Federal Coin Exchange" operated by Henry L. Writesel in Columbus, Ohio in the 1930's. "(L)" in the consignor column indicates a large format catalog.**

JOHN W. HASELTINE (Philadelphia PA)			**Haseltine did not number his sales until the 4/6/82 sale (#59). Sale #4 was a fixed price list. Numbers here from 11 to 58 agree with John Adams. Numbers below 11 sometimes differ from Adams, since Haseltine specifically assigned sale #8 to the 2/25/73 Chubbuck sale on the list of prices realized. The 9/22/1884 Thomas Birch sale is often included with the Haseltine catalogs as Haseltine revised the manuscript.**

Steve Ivy and Jim Halpern.
See also "Steve Ivy" and "New England Rare Coin Galleries."
The firm's "Bullet" sales are mail bid sales of "slabbed" coins.
Steinmetz also conducted mail bid sales in Numismatic News under the "Heritage" name in the late 1970's).
In March 1993 Heritage combined with Mid-American, which will hold no more auctions under that name.

HERITAGE SIGNATURE® AUCTIONS

A Time to Value Financial Stability

We understand just how important Heritage's financial strength and management continuity is to our consignors and clients. Financial dependability should be critically important to you when choosing an auction partner. After all, at the end of the auction process, you expect your check, and not a surprise.

The managing partners of Hertitage, left to right: Todd Imhof, Executive Vice President; Greg Rohan, President; Paul Minshull, Chief Operating Officer; Jim Halperin, Co-Chairman; Steve Ivy, Co-Chairman

Heritage enjoys well over $100 million in assets, almost $50 million in equity and owners' capital, and longstanding credit lines from its bankers. Heritage also has other sources of readily accessible capital, and a 20-year uninterrupted record of clean certified opinions from our auditors at KPMG. Our reputation means access to cheaper funds, and that translates into generous advances to consignors and extended terms available to attract more bidders.

Most significantly, Heritage has never been late on any single settlement with any consignor in all its years in business – 45,000+ consignors in 2,250+ auctions, involving billions of dollars in proceeds. Every one paid in full and on time!

Equally important, Heritage is strengthened by all of the advantages of fully-engaged ownership by just five managing partners, all of whom have worked together at Heritage for an average of two decades each. Under their direction, Heritage serves 450,000 registered bidder-members in 181 countries, and that global outreach remains one of our greatest strengths.

All these factors, and many more, make Heritage your logical choice in 2009 and beyond.

Trust: Heritage delivers like no other firm.

KAGIN'S

(Des Moines IA, San Francisco CA)

Includes Hollinbeck Stamp & Coin Co., Hollinbeck-Kagin, and Kagin's.
Initially Arthur M. and Paul Kagin, later Art & Don Kagin. Most of the missing sale numbers were included in the immediately preceding catalogs as "double" sales, the reason later being given that their sales were twice as large as others of the period. History bears this out as their sales did indeed have more than twice as many lots as the the national average for that period. On the other hand, their 250th and 309th (1977 ANA) sales each had several separate volumes, with only one sale number assigned. (Note also Abe Kosoff, who assigned as many as five sale numbers to one catalog.)

MICHAEL KOLMAN

Michael Kolman held many error sales before his Federal Coin Exchange / Federal Brand Enterprises sales. They were all in various numismatic error publications - first the Mint Error Collector, which became the Numismatick Airur Bulletin (R.J. Larson editor), then the Numismatic Mint Error Collectors Bulletin (M. Kolman editor), then finally the Federal Brand Eaglet.

ABE KOSOFF

(New York NY, Encino CA)

AKA Numismatic Gallery from the 9th to the 83rd sale. Abner Kreisberg was associated with the firm from the 29th to the 83rd sale, forming his own firm in 1954.
Like Kagin's, Kosoff occasionally assigned more than one sale number to a catalog. Unlike Kagin's rationale (the larger than normal size of their sales), Kosoff seems to have assigned one sale number to each session of a public sale.
The Fractional Currency section (Maurice M. Burgett collection) of the 1958 ANA Sale was reprinted with many illustrations, none of which appeared in the original catalog.

JOSEPH LEONARD & CO.
(Boston MA)

Primarily an auction facility for other catalogers - such catalogs are properly listed under those catalogers. While many catalogs have been issued with a wrong date (i.e. using the old year on a catalog just after January 1st), the record is held by Leonard's 3/14/1876 sale, which lists the year as "1676" on the title page. To further complicate matters, it has 3 sections of lots, each starting with lot #1, and the Durst book lists it as an 1871 sale, with the lot count of only the third (and non-numismatic) section.

MID-AMERICAN RARE COIN AUC.

(Lexington KY)

Jeff Garrett and Tom Mulvaney.
In 1990 the firm started their "Numismatic Express" catalogs, designed to provide quick turn-around, no-frills sales for "slabbed" coins. These sales are listed under "Numismatic Express."
In March 1993 the firm announced it was combining with Heritage, and would conduct no more sales under its own name.

J.C. MORGENTHAU

(New York NY)

Numismatic sales of this firm were cataloged by Wayte Raymond and James G. Macallister. One sale (#276) appears to have been cataloged by Macallister alone, without Raymond. The firm also served as a general (i.e. antiques, art, etc.) auction firm; only their numismatic sales are listed.
See also separate "Wayte Raymond" and "U.S. Coin Co." listings.
Walter S. Scott, primary auctioneer for the Morgenthau firm, also conducted sales under his own name.
"(L)" in the consignor column indicates a larger format catalog.

JOHN A. MUNSON III (Lynbrook NY)	**Although he held no public sales and published no catalogs, Munson is included here since his Numismatic Scrapbook sales were actually a front for New Netherlands Coin Co. After publicly castigating the "roll market" as mercenary and non-numismatic, New Netherlands found itself in the unfortunate (!) position of having to dispose of Wayte Raymond's inventory, including his rolls. So as to maintain the (deservedly) excellent New Netherlands image, John Munson (later a founding partner in NASCA) sold some of the material under his own name, through Numismatic Scrapbook mail bid sales.**

NEW NETHERLANDS COIN CO.

(New York NY)

Originally Moritz Wormser (former five term president of the ANA), Charles Wormser (his son), and David Bullowa, with Stuart Mosher acting as manager during World War II. In 1946 Bullowa founded his own firm by buying out Ira Reed. John J. Ford Jr. joined the firm in 1951 and brought in Walter Breen as a cataloger. The two together provided some of the finest cataloging to be found in American numismatic auctions.
New Netherlands also operated the coin department of the Scott Stamp and Coin Company from 1946 to 1950.
See also separate David M. Bullowa and John J. Ford listings, and a connected listing under John A. Munson III.

Morgenthau catalogs (1932-1945), and ran the coin department of the Scott Stamp and Coin Co. (1934-1946). He also cataloged some sales for Anderson Galleries and American Art Association.

SCOTT STAMP & COIN CO.

(John Walter Scott, New York NY)

Scott is generally regarded as "The Father of American Philately," and catalog numbers of the coin sales were shared with the philatelic sales - all numbers not listed here were philatelic only.
Sale #'s 83 to 135 were probably cataloged by Lyman Low, earlier ones by David Proskey.

R.M. SMYTHE & CO. (John Herzog, New York NY)	**Some catalogs appear in "Friends of Financial History." In 1985 NASCA was purchased from Jules Karp by R.M. Smythe. Some later autograph catalogs appear under the Smythe name but in the NASCA style, within the NASCA number sequence - they are listed under NASCA. In 1990 "Friends of Financial History" was purchased by the Museum of American Financial History. In October 1990 (sale #87 on) the NASCA part of the NASCA/SMYTHE name was dropped, the firm using only the SMYTHE name, but continuing the catalog number sequence. Early in 2008 (after sale #278) the firm was purchased by the British Spink firm, and the name became Spink/Smythe.**

STACK'S (New York NY)						**"Coin Galleries," the second "Manhattan Coin Co.," and "Stack's Galleries," all subsidiaries, are listed separately. In addition, Ben Stack left the firm for a brief period in the 1950's, forming the "Imperial Coin Co." All catalogs were normally issued with soft covers except the 11/30/88 Kramer sale, for which the regular press run was entirely hard bound. There were, however, some made with soft covers. The 6/8/94 sale was released in two versions, with or without color plates.**

TELETRADE (Bernard Rome, New York NY)						**A new marketing concept, Teletrade sells potential bidders a videotape showing the lots in color, with a simple voice narration. Also included is a cheaply produced "catalog" for reference. Bids are made during certain hours on the day of sale, using a touch-tone telephone to enter bids directly into the firm's computer, with instant return indication of whether the bidder is high at that moment. Later catalogs have been inserts in Coin World and Numismatic News. They occasionally have different numbers of pages due to the the different page size in the two papers. In addition, these inserts usually have two or three sales, with different sale numbers and closing dates in each insert. This accounts for the page counts of zero listed below.**
